QUALITY OF CARE:

(EYFS) Early Years Foundation Stage (Department of Education)

Mary Poppins operates within the framework of (EYFS) our parents can be confident their child will receive a quality experience that supports their care, learning and development.

The Early Years Foundation Stage (EYFS) is a comprehensive statutory framework that sets the standards for the learning, development and care of children from birth to five. We believe every child deserves the best possible start in life and support to fulfill their potential. We know a child's experience in the early years has a major impact on their future life chances. A secure, safe and happy childhood is important in its own right, and it provides the foundation for children to make the most of their abilities and talents as they grow up. When parents choose a nursery they want to know that the provision will keep their children safe and help them to thrive. The Early Years Foundation Stage (EYFS) is the framework that provides that assurance.

The overarching aim of the EYFS is to promote the four themes which underpin the guidance promoting a Unique Child, Positive Relationships, Enabling Environments and Learning & Development.

We look at setting the standards for learning, development and care young children should experience when they are attending our nursery outside their family home, ensuring that every child makes progress and that no child gets left behind.

Mary Poppins Day Nursery

We look to provide for equality of opportunity and anti-discriminatory practice and to ensure that every child is included and not disadvantaged because of ethnicity, culture or religion, home language, family background, learning difficulties or disabilities, gender or ability.

We look to set the framework for partnership working between parents and professionals, and between all the settings that the child attends.

We look to maintain quality and consistency in the early year's sector through a universal set of standards which apply to all settings, ending the distinction between care and learning in the existing frameworks, and providing the basis for the inspection and regulation regime.

Laying a secure foundation for future learning through learning and development that is planned around the individual needs and interests of the child, and informed by the use of ongoing observational assessment.

Areas of Learning & Development

There are numerous activities our children will participate in, these cover the three Prime areas of learning, Personal, Social, & Emotional Development, Communication, Language & Physical Development in addition the four specific areas of Mathematics, Literacy, Expressive Arts & Design & Understanding the World.

Our outdoor play area further promotes the seven areas of development, offering shelters, quiet Areas, and challenging physical activities

Each group of children is cared for by qualified and experienced members of staff, under the overall supervision of the principals.

It is our aim that each group of children are cared for by a key member of staff in order to maintain the best possible progress and reporting procedure to parents. A written child development and progress chart is in operation, written reports are made available to parents on a three or six month basis depending on the child's age.
